

Hello Everyone, I Am

Maisam Ali Abbas

Android Application Developer

How About Me ?

I am Maisam Ali Abbas, an experienced Android Developer with over 2 years of hands-on experience in developing mobile applications using Java and Kotlin. I have a strong expertise in integrating REST APIs and working with Firebase for real-time data handling and cloud functions. Currently, I am pursuing a BS in Computer Science and am leading the development team at GB Blood Donors, where I contribute to impactful projects aimed at improving the community. Throughout my career, I have successfully worked with 3 companies and contributed to several projects, including GB Blood Donors, RZQ, Sabroso ETS, Top Cars, and OLX Baltistan. My goal is to create user-friendly, scalable applications that solve real-world problems.

2 Years Of
Experience

Services I provide

I specialize in Android app development using Java and Kotlin, providing feature-rich, user-friendly solutions. My expertise includes seamless REST API integration and leveraging Firebase for real-time databases, cloud messaging, and authentication. I also offer project leadership and custom app solutions tailored to meet specific business and community needs.
